
Questionnaire of the "HYPERPOEM" project participant

This questionnaire is a document confirming the participation of the author of the quatrain (a poem in four lines) in the project "HYPERPOEM". The author retains the right to a quatrain, but he does not have the right to share the text of the full manuscript without the consent of the publisher.

The aim of the "HYPERPOEM" project is to present the author's work and strengthen international relations of authors from different countries, as well as to establish a world record and the subsequent release of a collection of poetry.

The theme for all submitted quatrains should be INTERNATIONAL COOPERATION or INTERNATIONAL FRIENDSHIP.

Quatrains containing a call to violence, insulting any social groups or corrupting will not be included in the project!

A commission of independent experts will monitor the progress of the project and the correctness, as well as the individuality of filling out the questionnaire.

All questionnaires must be unique and filled out by individual authors, collected by regional ambassadors under the supervision of an independent commission. After collecting all the author's manuscripts, the complete work will be nominated for the Guinness Book of Records. The final stage of the project is the release of the collection of the same name - "HYPERPOEM".
